### Description

Why Choose SE's Plastic Gold Pan over Traditional Metal Pans?

- Plastic does not rust or corrode.
- The shallow and deep riffles trap the gold better, making your pan as effective as a sluice box.
- Plastic weighs a lot less than the metal pans.
- The color stays true in the plastic pan so the gold flakes are easier to see.
- The 1/8-inch deep round base optimizes your gold trapping ability.
