

Sale Name: AW Dynamometers Dynamometer System & Band Saw Online Auction Liquidation.

LOT 1 - AW Dynamometers Model I-600 dynamometer system

Description

AW Dynamometers Model I-600 dynamometer system. This includes the I-600 dyno, AW DynoPro 2100S computer/controller, T-T Electric IEC 60034-1 3 phase AC motor, VLT AutomationDrive 134G6677 250kW /350 HP high overload drive control, drive shaft shroud & more. Up to 600 horsepower at 3600 RPM.

This was purchased by a high-tech company for a job and then barely used as they went another direction. As you can see in the photos it looks like new but it has also been taken apart so it is not currently operational. We encourage you to inspect this in person. This system is located in Loveland, CO. You may arrange a personal inspection on Tuesday, June 14, 2022, From 10:00 AM until 4:00 PM **BY APPOINTMENT ONLY** by emailing info@whitleyauction.com

Quantity: 1
